CONTENTS

Number 1

1 Strike-slip tectonics and development of the Tertiary Queen Charlotte Basin, offshore western Canada: evidence from seismic reflection data *K. M. M. Rohr and J. R. Dietrich*

21 Stratigraphic record and palaeogeographical context of the Neogene basins in the Betic Cordillera, Spain *C. Sanz de Galdeano and J. A. Vera*

37 Oligocene to Early Miocene sedimentation and tectonics in the southern part of the Calabrian–Pelitoran Arc (Aspromonte, Southern Italy): a record of mixed-mode piggy-back basin evolution *Gert Jan Weltje*

69 Book Reviews

Number 2

73 The large-scale dynamics of grain-size variation in alluvial basins, 1: Theory *Chris Paola, Paul L. Heller and Charles L. Angevine*

91 The large-scale dynamics of grain-size variation in alluvial basins, 2: Applications to syntectonic conglomerate *Paul Heller and Chris Paola*

103 Late Quaternary evolution of the Madeira Abyssal Plain, Canary Basin, NE Atlantic *R. G. Rothwell, T. J. Pearce and P. P. E. Weaver*

133 Application of a dual-lithology, depth-dependent diffusion equation in stratigraphic simulation *Jan C. Rivenaes*

147 Forward modelling of porosity and pore pressure evolution in sedimentary basins *D. M. Audet and J. D. C. McConnell*

163 Book Reviews

Numbers 3/4

169 The effective elastic thickness of the lithosphere and the evolution of foreland basins *A. B. Watts*

179 Spatial and temporal evolution of foredeep basins: lateral strength variations and inelastic yielding in continental lithosphere *Paula J. Waschbusch and Leigh H. Royden*

197 Basin formation behind an active subduction zone: three-dimensional flexural modelling of Wanganui Basin, New Zealand *T. A. Stern, G. M. Quinlan and W. E. Holt*

215 Vertical versus horizontal motions in the Alpine orogenic wedge: stratigraphic response in the foreland basin *H. D. Sinclair and P. A. Allen*

233 Geomorphic controls on sediment accumulation at margins of foreland basins *Gordon S. Fraser and Peter G. DeCelles*

253 Evolution and significance of an overfilled alluvial foreland basin: Burnside Formation (1.9 Ga), Kilohigok Basin, N.W.T., Canada *David S. McCormick and John P. Grotzinger*

279 Timing and record of foreland sedimentation during the initiation of the Sevier orogenic belt in central Utah *Virginia Yingling and Paul L. Heller*

291 Non-marine sedimentation in the overfilled part of the Jurassic–Cretaceous Cordilleran foreland basin: Morrison and Cloverly Formations, central Wyoming, USA *Peter G. DeCelles and Elliot T. Burden*

315 Intrabasinal tectonic control on fluvial sandstone bodies in the Cloverly Formation (Early Cretaceous), west–central Wyoming, USA *J. H. Meyers, L. J. Suttner, L. C. Furer, M. T. May and M. J. Soreghan*

335 Temporal and spatial controls on the alluvial architecture of an axial drainage system: late Eocene Escanilla Formation, southern Pyrenean foreland basin, Spain *Peter A. Bentham, Douglas W. Burbank and Cai Puidefabregas*
